EDUCATION

Bachelor of Technology

2022 - 2026

St. Martin's Engineering College (CGPA: 8.03/10)

Hyderabad, Telangana

Intermediate Education (TSBIE)

2020 - 2022

Narayana Junior College (Percentage : 93%)

Hyderabad, Telangana

SKILLS

Programming Languages: Python, C/C++, SQL

Systems & Infrastructure: Distributed Systems, Redis, Docker, Kubernetes, CI/CD, REST APIs

Frameworks: Django, REST APIs, React

CS Fundamentals: DBMS, OS, OOP, Algorithms & Data Structures, SDLC, Concurrency

Soft Skills: Problem-solving, Communication, Team Collaboration

WORK EXPERIENCE & INTERNSHIP

TraceFinder | Infosys Springboard

Nov 2025 - Jan 2026

- Developed an image analysis pipeline using feature extraction, preprocessing, and Machine Learning techniques to identify patterns and improve classification accuracy.
- Prepared technical documentation, presented project outcomes, and collaborated with team members to deliver solutions aligned with business requirements.

Python Developer Intern | Zapuza

Oct 2024 - Apr 2025

- Designed and optimized SQL queries using joins, aggregations, and window functions to improve data retrieval efficiency and reporting workflows.
- Collaborated with team members to analyze requirements, debug backend applications, perform testing, and improve API performance, resulting in 30% higher system reliability.

PROJECTS

TrimTrack - URL Shortener & Analytics Platform.

Mar 2026

- Designed distributed Snowflake ID generation to ensure globally unique, time-ordered IDs without coordination overhead — addressing concurrency and ordering challenges in distributed write paths.
- Engineered Redis cache-aside pattern with expiry-aware invalidation strategy, reducing P99 redirect latency to 15ms and sustaining 92% hit rate under 1000+ concurrent RPS via Locust load testing — demonstrating understanding of read-heavy workload optimization.

IntelliDocs - AI Document Intelligence Platform — Django, React, OCR, Gemini API (LLM) Jul 2025

- Built a full-stack document intelligence platform (React + Django) with REST API integration for extracting, summarizing, and analyzing PDFs, text files, and URLs using OCR and LLMs.
- Designed an interactive notebook-style interface with real-time AI chat support to enhance document analysis and user productivity.

AlphaScan(Vulnerability Detector) — Python, Prompt Engineering, OWASP, Groq API (LLM) Oct 2025

- Collaborated within a multidisciplinary team to design, develop, and present an AI-powered cybersecurity solution, earning 2nd place among participating teams.
- Integrated LLMs to generate structured vulnerability reports with automated remediation suggestions, reducing manual documentation effort by 70%.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) | Microsoft

Jun 2025

- AI Concepts – Machine Learning, NLP, Computer Vision, Responsible AI, Azure AI Services.

Supervised Machine Learning: Regression & Classification | Coursera

Jan 2025

- Machine Learning Foundations – Regression, Classification, Cost Functions, Gradient Descent, Model Evaluation.

Python Programming | Harvard University

Mar 2024

- Python Programming – Algorithms, OOPs, Data Structures and Problem-Solving Fundamentals.

ACHIEVEMENTS

- Solved 150+ Data Structures and Algorithms problems on LeetCode with focus on graphs, trees, and dynamic programming strengthening problem-solving, algorithmic thinking, and coding proficiency.
- Achieved 2nd place in Idea X Pitch Fest hackathon by developing an AI-powered cybersecurity and vulnerability detection platform collaborating with a team to design, implement, and present an innovative solution.
